

BREW with the crew

AT STOCKMAN'S RESTAURANT

Resilient Control & Instrumentation Systems (ReCIS), in collaboration with the Institute of Electrical & Electronics Engineers (IEEE) and the International Society of Automation (ISA), would like to invite anyone interested to "Brew with the Crew," an after-work event that will take place every third Thursday of the month at Stockman's Restaurant in Idaho Falls (1175 Pier View Drive – Snake River Landing). The purpose of the meetings is to allow opportunity for instrumentation, control and intelligent systems researchers and practitioners to interact with others in their community, both inside and outside of INL. In this informal forum, people are not required to provide a documented presentation, but instead to share the nature of their research and interests and to possibly include some interesting stories along the way.

Meeting topics are scheduled as shown below. The brewing will begin at 4:30 p.m. with the topical discussion starting at 5 p.m. and adjourning around 6:00 p.m. Finger food will be provided to keep the stomachs from growling.

March 15	Dakota Roberson, U of Idaho	<i>The Versatility of Energy Detection</i>
April 19	James Money	<i>GPGPU Enabled Adaptive Volume Visualization for High Density Scan & Simulations</i>
May 17	Donovan Nichols	<i>The Value of Cybersecurity Assessments</i>
June 21	Brad Whipple	<i>Field Flug: From Concept to Manufacture</i>
July 19	Boryann Liaw	<i>Fuzzy based driving cycle analysis to understand driving habits</i>
August 16		
September 20	Ryan Pitcher, ISU	
October 18	Bjorn Vaagensmith	
November 15	Jason Hansen
