Resilient Control & Instrumentation Systems (ReCIS), in collaboration with the Institute of Electrical & Electronics Engineers (IEEE) and the International Society of Automation (ISA), would like to invite anyone interested to "Brew with the Crew," an after-work event that will take place every third Thursday of the month at Stockman's Restaurant in Idaho Falls (1175 Pier View Drive – Snake River Landing). The purpose of the meetings is to allow opportunity for instrumentation, control and intelligent systems researchers and practitioners to interact with others in their community, both inside and outside of INL. In this informal forum, people are not required to provide a documented presentation, but instead to share the nature of their research and interests and to possibly include some interesting stories along the way.

Meeting topics are scheduled as shown below. The brewing will begin at 4:30 p.m. with the topical discussion starting at 5 p.m. and adjourning around 6:00 p.m. Finger food will be provided to keep the stomachs from growling.

March 21	Michael McCarty	*Using side channel sensors to recognize cyber attacks*
April 18	Bjorn Vaagensmith Brad Whipple	*Keeping the lights on - Team Glass Paper's Energy I-Corps Experience*
May 16	Bryce McClurg	*Creative Destruction and Agnostic Detection using a Structured Threat Observable Tool Set*
June 20	Gavin Hawkley	*Risk-based resilience*
July 18	James Murphy	*DEEPR*
August 15	Ryan Hruska	*Logs, Logs, Everywhere… What happens when everyone wants to own your data, network, and process?*
September 19	Thomas Ulrich	*Cognitive Resilience*
October 17	Robert Youngblood	*Different Ways of Thinking About 'Importance:' Deciding What Part of a System to Focus On*
November 21	Erin Searcy	*Navigating LDRD at INL*
