

AT STOCKMAN'S RESTAURANT

The Instrumentation, Control and Intelligent Systems (ICIS) distinctive signature, in collaboration with the Institute of Electrical & Electronics Engineers (IEEE) and the International Society of Automation (ISA), would like to invite anyone interested to "Brew with the Crew," an after-work event that will take place every third Thursday of the month at Stockman's Restaurant in Idaho Falls (1175 Pier View Drive – Snake River Landing). The purpose of the meetings is to allow opportunity for instrumentation, control and intelligent systems researchers and practitioners to interact with others in their community, both inside and outside of INL. In this informal forum, people are not required to provide a documented presentation, but instead to share the nature of their research and interests and to possibly include some interesting stories along the way.

Meeting topics are scheduled as shown below. The brewing will begin at 4:30 p.m. with the topical discussion starting at 5 p.m. and adjourning around 6:00 p.m. Finger food will be provided to keep the stomachs from growling.

March 19	Troy Unruh	Enhanced Micro Pocket Fission Detector Evaluations
April 16	Hussein Moradi	Wireless Spectrum Communication - WSComm
May 21	John Buttles	Intelligent Plant Configuration Management Using Wireless Sensors
June 18	Tim Kaser	Digital Controls, Software Failure & Impact for Nuclear Reactors
July 16	Vivek Agarwal	Acoustic Telemetry Infrastructure for In-Pile Advanced Test Reactor Monitoring
August 20	N/A	Resilience Week – Philadelphia, PA
September 17	Craig Miles	Program Behavior Elicitation with Concolic Execution
October 15	David Chichester	Nonproliferation Sensors
November 19	Brenden Heidrich
